

FAST FACT SHEET

ABBYY Lingvo 10 - the newest version of the most popular electronic dictionary in Russia.

The software offers 2 product versions. **The English–Russian** version includes more than **6 million** translations incorporated into **36** general and specialised dictionaries, the **multilingual** version includes more than **10 million** translations incorporated into **78** general and specialised dictionaries. This is an ideal tool for those who need quick and accurate translations from **Russian into English** and back again or from Russian into **English/German/French/Italian/Spanish** and back again (multilingual version).

Key Features

- **English–Russian: 6 million translations in 36 dictionaries**
Multilingual: 10 million translations in 78 dictionaries
 ABBYY Lingvo 10 contains over 6 million or 10 million (multilingual) translations in 36 or 78 (multilingual) dictionaries. It includes the latest general editions as well as 34 specialised dictionaries (law, medicine, finance, etc.). With Lingvo you have access to the latest terminology, which ensures the most accurate and modern translation.
- **User friendly interface**
 Lingvo is very easy to use. Its intuitive user interface offers dictionary management and search settings well suited for both the professional translator and the private user.
- **Lingvo Tutor for improving your own language skills**
 Lingvo Tutor is a new application designed to help language learners memorise new words. You can feed it lists of words you wish to learn and Lingvo Tutor will create “flash cards,” a very effective method for memorising new words.
- **Translations on the go**
 Lingvo can be installed on PC as well as on Palm and Pocket PC handheld devices, which enables you to use your electronic dictionary wherever you go.

Target Group

Private users who have just started learning a foreign language, business users working in international markets, or professional translators. Lingvo is easy enough for beginners but also comprehensive enough to offer many business and other terminology used by professionals. Pocket PC and Palm compatibility makes it ideal for travellers and the cost effective price point makes it an attractive solution for all needs.

Some examples:

- **Students and people learning a new language** wanting a user friendly interface and customizable solution
- **Small agencies and employees in international offices** working with business word translations
- **Professional translators** needing a cost effective comprehensive dictionary
- **Language schools and teachers** preparing files and documents for their courses and exams
- **Tourists and travellers** using a hand held device to get translations “on the go”

ABBYY - Short Overview
