This document shredder on rollers ensures data security in open-plan offices or as an office-floor machine. Its induction-hardened solid steel cutting rollers are impervious to staples and paper clips and guarantee long service life. The powerful motor guarantees a high cutting capacity as well as reliable operation even under continuous load. The keypad with LED display enables you to easily operate the document shredder and view the operating state. An integrated light barrier starts the device automatically and switches it off again after the paper feed ends. The document shredder also switches off automatically when the waste container is full and the door is open. The automatic reverse rectifies paper jams and ensures smooth operation. High user safety is guaranteed by the folding safety element, which prevents unintentional intake. The removable reusable collecting bag helps make it easy to dispose of shredded materials. You can set the document shredder to standby mode and save power using the on/off switch. The high-quality materials and proven quality "Made in Germany" guarantee you security and long service life.
