Automatic document
scanning solutions
for improved
workflow

Brother's automatic colour document scanning range has been designed to help you digitise, share and archive documents quickly and efficiently.

Storing documents can be a costly exercise for many organisations. Brother's dedicated desktop scanners are the perfect solution for document management and improved workflow, making more efficient use of paper based assets. They will also help to reduce paper clutter and maximise available office space.

They include a suite of software making it easy to:

- Access and retrieve scanned documents
- Share documents, improving communication and workflow
- Make documentation accessible for your mobile workforce
- Archive documents for best practice/legal obligations
- Securely store sensitive documentation

Fast, efficient and easy to use

Brother's scanner range has been designed to enhance user experience and make light work of even the most intensive scanning requirements.
