

# ELEVATE YOUR OFFICE PRODUCTIVITY WITH COMPACT, RELIABLE DESKTOP SCANNING

The Canon imageFORMULA DR-C350 and DR-C340 are super compact A4 document scanners designed for maximising document workflow efficiencies in small workspaces.

**SCANNING SPEED**  
**DR-C350: 50PPM / 100IPM**  
**DR-C340: 40PPM / 80IPM**

**AUTOMATIC DOCUMENT  
FEEDER 100 SHEETS**

**SUGGESTED SCANS PER DAY**  
**DR-C350: UP TO 8,000**  
**DR-C340: UP TO 7,000**

**COMPACT SIZE  
JUST 283MM WIDE**

 **imageFORMULA**  
**DR-C340/DR-C350**

## BENEFITS

- **Save desk space** with our narrow scanner yet; perfect for branch offices, retail spaces and reception areas.
- **Versatile and flexible document workflows** with robust feeding mechanism that ensures best in class reliability for scanning various types of documents.
- **Easy operation** with an intuitive display and easy-to-follow icons including one touch scanning with preconfigured jobs – accelerating and simplifying scanning tasks.
- **Maximise productivity** with duplex scanning speeds of up to 100ipm and ability to stack up to 100 sheets in the document feeder.
- **High-quality scanning** with various advanced image processing tools to automatically produce crisp, clear images from all types of documents, even those with feint writing or patterned backgrounds.
- **Included Software** that offers additional value with automatic file naming, batch separation and OCR / barcode processing, and file saving to multiple formats.
- **Reduce environmental impact** Support the environment by using this highly durable, EPEAT Gold certified<sup>2</sup> device with low power consumption and reduced parts usage.

# A ULTRA COMPACT WITH EASY AND FLEXIBLE OPERATION.

## ULTRA COMPACT, SAVING YOU SPACE

Designed for offices where space is limited the DR-C340/350 models are our narrowest scanners yet; taking up much less space than many competitor models. Perfect for branch offices, retail spaces and reception areas.

## EASY OPERATION FOR HASSLE FREE SCANNING

Easy operation with an intuitive display and easy-to-follow icons including one touch scanning with preconfigured jobs – accelerating and simplifying scanning tasks. Raised buttons support accessibility, while sensors flag errors to keep scans moving. And, with the DR Management Tool, you can centrally manage several scanners across your organisation. The scanners are provided with Type-C™ cable for easy convenient connectivity<sup>1</sup>.

218mm (8.6")

157mm (6.2")

## VERSATILE SUPPORTING ALL DOCUMENT WORKFLOWS

With the solid robust feeding mechanism reliably batch scan various types of documents from ultra-thin papers, ID cards, to documents up to 6m long. Passports can also be scanned through the feeder without needing to use a separate carrier sheet. The ultrasonic double feed detection ensures all documents are scanned, and the Double Feed Release (DFR) function allow scanning to restart quickly, keeping downtime to a minimum.

USB Type-C™ is a trademark of USB Implementers Forum.

## MAXIMISE PRODUCTIVITY AND IMAGE QUALITY

Elevate performance and efficiency with duplex scanning of up to 100ipm (DR-C350 model). Using the large 100-sheet feeder batch scan several documents at once; save further time and effort with automatic file separation and adaptive image processing controls. Create consistent high-quality images when scanning all types of documents thanks to Active Threshold, and other advanced image processing tools.

## POWERFUL SOFTWARE WITH OCR

CaptureOnTouch Pro is PC client-based scanning software that offers a user-friendly interface using simple icon-based operation and has powerful document processing tools. Setup jobs to save to multiple formats including PNG, JPEG, TIFF, BMP, PPTX, Word\*, Excel\* and PDF. Supports OCR, barcode and 2D code recognition, and output index data files for smooth integration into existing workflows and document management systems.

## SAVE OPERATIONAL COSTS

Utilise Canon's DR Scanner Management Tool to simultaneously monitor and distribute settings for large number of scanners across your business and user environments.

## REDUCE ENVIRONMENTAL IMPACT

Using replacement roller refill kit helps to minimise waste, while packaging made from reusable and biodegradable materials helps reduce plastic consumption. The EPEAT Gold-rated<sup>2</sup> device has low power consumption and saves resources with optimal number of parts used.
