

# IRIScan™ Pro 3 Cloud

## You scan, it connects to the Cloud.

The IRIScan™ Pro 3 Cloud is a multi-functional scanner. Thanks to its amazing value-for-money software suite, it offers small businesses and independent workers a powerful tool to improve their productivity, allowing them to:

**Scan any type of document** - Contracts, invoices, receipts, bills, business cards and even handwritten correspondence can be scanned in a single click at a very high speed (15ppm).

**Scan in and out of the office** - The scanner's detachable base is the ideal solution to scan on the go. Only one USB port is needed to scan anywhere, anytime.

**Convert any paper document, PDF or image into digital files that can be edited, indexed and shared** - Thanks to the included brand-new Readiris™ Corporate 14 OCR software, scanned documents can be converted, edited, hyper-compressed (thanks to iHQC™), and sent directly to the Cloud (SharePoint®, Google Drive™, Evernote®, Box, Skydrive™, Dropbox).

**Manage documents and content by optimizing the document workflow** - I.R.I.S.' document management system IRISFile™ 12 centralizes files in a secured and electronically accessible environment.

**Scan, recognize and manage their business cards** - Thanks to Cardiris™ Corporate 5, users get rid of their cumbersome paper business cards and keep their electronic contacts up-to-date in their favorite Contact Manager (Outlook®, Act!®, etc.) or in the Cloud (Google™ Contacts, Salesforce™, etc.).
