Features

Scans 18 Double-Sided Pages Per Minute:

Built to be a performer, the Fujitsu ScanSnap S510M scanner digitizes both sides of a document in a single pass, in color, and at an amazing speed of up to 18 pages per minute (36 images per minute in duplex). With an auto document feeder capable of feeding 50 pages continuously, the S510M can scan through stacks of documents in no time flat!

Advanced Features for the Ultimate Ease of Use!

With the touch of a single button, the ScanSnap S510M displays images as they are meant to be seen using a host of automatic features, including:

Auto color detection

The ScanSnap S510M distinguishes color documents from black & white and converts them into PDF files.

Auto paper size detection

The ScanSnap S510M recognizes the size of each page being scanned such as A4, B5, A5, B6, A6, Business Card, Legal and Letter.

Auto de-skew

The ScanSnap S510M straightens images and shows them in their proper orientation.

Auto blank page detection

The ScanSnap S510M saves storage space and editing time by automatically deleting blank pages.

Scan more with the Carrier Sheet

The ScanSnap S510M provides a Carrier Sheet to permit digitizing delicate documents as well as paper as large as A3.

Intel® Mac® Compatible

The Fujitsu ScanSnap S510M scanner is supported by Mac OS® X v10.4 Tiger and Intel® or IBM® PowerPC® based computers.

Compact Angular Design

With a tiny footprint that takes up less space than a letter size piece of paper, users will never have to worry about where to place a ScanSnap S510M on a packed desk. Space efficiency and document feeding performance is further enhanced with the addition of a built-in stacker that conveniently folds over its angular design.

Adobe® Acrobat® 8 Professional for Mac® Included

Adobe® Acrobat® 8 Professional software enables Mac users to reliably create, share and control authentic Adobe PDF documents for easy, more secure distribution.

Increase Productivity with Enhanced Functionality:

The Quick Menu sets a new standard in ease-of-use and control over scanned documents. Attach scans directly to email, save scans to selectable folders or send scans directly to a printer in place of a photocopier. With Quick Menu, ScanSnap S510M users get more out of their scanned data.

Instantly Create Searchable PDF Files:

Powered by the included ABBYY FineReader software, the ScanSnap S510M can automatically convert scanned data into searchable PDF files that support Mac OS "spotlight" and Adobe® Acrobat® searches.

Advance Exchange Service Program Maximizes Uptime:

The Fujitsu ScanSnap S510M scanner is covered by a one-year Limited Warranty. An upgrade to the Advance Exchange service program (sold separately) is also available to eligible purchasers at www.BuyFCPA.com. For full details on the Limited Warranty and on all service programs, go to www.ImagingService.com or call (800) 626-4686.
