Scan business cards, plastic ID cards,\*\* and documents up to legal-size!
- **Patented AutoLaunch™ Technology**  
Insert document to start scan automatically!

The Visioneer Strobe XP 300 is perfect for the busy professional who needs a fast and reliable duplex scanner for the office, on the road or at home.

### Easy to Organise

The Strobe XP 300 is integrated with ScanSoft PaperPort Pro Office and OmniPage, making it easy to organise your life and work. Now you can scan and file all of your documents and photographs electronically right alongside your electronic documents from Microsoft Office, PDF files from Adobe Acrobat and image files from numerous other applications.

### Scan to Text-Searchable PDF

Transform volumes of paper and existing electronic files into digital files that you can quickly find, use, share and store. In searchable PDF format, you can instantly search documents for keywords or phrases. This gives them additional archival benefits beyond traditional storage, and the widely accepted PDF format lets everyone view and print documents - on any computer. The result is the ideal solution for streamlining information and making it easy to find.

### Mobility

The Strobe XP 300 combines the ease-of-use, mobility and speed, making it ideal for any situation. Its duplex capability means you can scan two-sided documents at the same speed as a single-sided page. Measuring only 51 x 64 x 305 mm and weighing a mere 570 grams, the Strobe XP 300 is slim and lightweight. It instantly turns paper documents into digital files and when powered through the USB port, can be used even when electrical power is not available. Imagine being able to scan receipts in your car, business cards on a plane and work effortlessly in foreign countries. Mobile professionals looking to maximise productivity even while holed up in a hotel room will easily appreciate the versatility of the Strobe XP 300 as a mobile scanning solution. They can quickly capture the day's contracts, business cards, briefing papers, and expense receipts, unplug the scanner and slip it into their laptop bag. When used in the office, it is a sleek, unobtrusive tool for managing paper throughout the day.

### AutoLaunch Technology

With Visioneer's patented AutoLaunch™ Technology, you can simply feed a page into the front of the scanner and the Strobe XP300 automatically starts the scan and launches the software. Users can insert a document and have the scanned image sent directly to a pre-selected destination or application. Destinations include scan to searchable PDF, scan to email, scan to print, scan to archive, scan to network and scan to OCR.

### Scan Directly to your Application

AutoLaunch scans a paper document at pre-configured scan settings and sends the document to a destination. That destination can be an application such as a word processing application or email, a storage or network location, or device such as a printer or fax. In addition to the pre-programmed scan-to destinations, custom links are also available. Scan directly to legal and accounting applications, such as case management software and SAP®†. If you use eRoom®‡ or SharePoint®, you can insert a page and scan directly to those too!

#### Minimum System Requirements:

- Pentium II 300 or equivalent processor
- Windows 2000/ME/XP
- 128MB RAM (256MB RAM for Windows XP)
- 200MB available hard disk space
- CD-ROM drive
- USB Port

#### Product Specifications:

- Optical Resolution: 600 dpi
- Scanner Bit Depth (colour): 48-bit internal (recognises over 281 trillion colours)
- Scanner Bit Depth (greyscale): 16-bit internal (65,536 shades of grey)
- Output Bit Depth: 24-bit colour, 8-bit greyscale, 1-bit black & white
- Scan Method: Fast Duplex Sheetfed

Interface: High Speed USB 2.0 (USB 1.1 compatible)

Scanner Driver: TWAIN & WIA

Dimensions: 51 x 64 x 305 mm

Weight: 570 grams

Part Number:

90-7043-800

Barcode:

4711860704385

†Coming soon. ‡Charges apply for this link. \* Based upon scanning on A4 document at 200 dpi B/W. \*\*Up to one millimetre thick, non-embossed plastic cards
