

Xerox Travel Scanner 100

Your solution for the paperless road!

- Scans receipts, business cards and paper documents black & white, greyscale or colour
- Lightweight Scanner – weighs only 300 grams (10.6 oz.)
- USB Powered – No external power support required
- Instant scan to searchable PDF for easy search and retrieval
- Perfect Images from Imperfect Originals with Kofax VRS technology

Paperwork done before you get home

Whether you're on a business trip or work in a mobile environment, you collect paper on your travels. Business cards, receipts, contracts, forms and photos – and it all has to wait in an already overcrowded bag or briefcase (or sometimes even pockets, wallets and purses) until you get back to your office.

The sleek and compact Travel Scanner 100 is the perfect companion for the mobile professional – lightweight, small and needs no AC outlet. Just connect the USB cable to your laptop, insert a document and you're already scanning – and not just scanning, but scanning to popular and productive destinations such as email, Word, Microsoft SharePoint, local or network hard drives, supported by the most popular file formats including text-searchable PDF so that you can find your scanned documents by their content.

Documents from the road can't always wait for your trip home. Business cards are scanned, recognised intelligently and then the data is synchronised with your Outlook Contacts or smartphone straight away. Your receipts no longer get lost (and you are not left out of pocket). You can work on and complete your expense report before you get home.

Perfect Scans from Imperfect Originals

Visioneer OneTouch with Kofax VRS (Virtual ReScan) technology is integrated into the scanner driver so that you get perfect scans from imperfect originals. VRS also eliminates the need to rescan documents through automatic cropping, straightening, brightness control and edge clean-up. All this is integrated into Visioneer OneTouch so your entire scanning requirements are achieved at the touch of a button.

Scan

Using the unique AutoLaunch™ technology, this lightweight scanner can scan your receipts, business cards, A4 documents, newspaper clippings, notes and even photographs – fast!

Organise

The Travel Scanner 100 software allows you to stack your scanned receipts and documents to make organising easier. Plus, using Google Desktop Search, you can easily locate the information stored in your scanned documents and email. Scan it, organise it and share it – then leave bulky paper behind.

Share

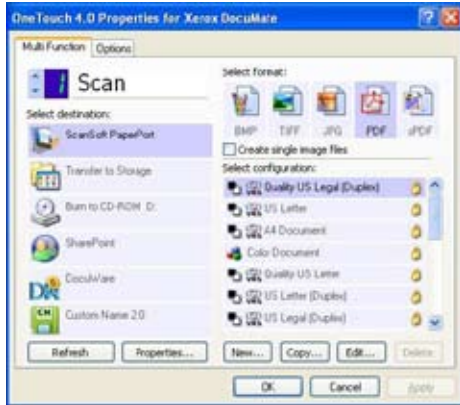

Searchable PDF making finding information easy – because documents are scanned into a searchable PDF format, you can easily send and share information with your team, clients or headquarters.

The Travel Scanner 100 also comes with a professional software bundle that includes NewSoft Presto! BizCard, Nuance PaperPort and OmniPage Pro, and an advanced TWAIN driver to enable communications with electronic content management (ECM) software applications.

Xerox Travel Scanner 100

Visioneer OneTouch

Visioneer OneTouch is an easy to use utility that connects the buttons on the scanner with a powerful set of scanner settings to greatly improve the efficiency of your workflow – so that with one touch, the document is scanned automatically to email, Word, your printer, or simply a file folder.

In addition to scanning directly to all popular destinations, Visioneer OneTouch also links the Travel Scanner 100 with industry-leading document management software, such as Microsoft SharePoint, DocuWare & Xerox DocuShare – forming an easy to use workflow from paper to a selected destination. A Software Development Kit (SDK) is also available which provides the ability to develop specific links and integrate them into the Visioneer OneTouch control panel quickly and easily.

Kofax VRS technology

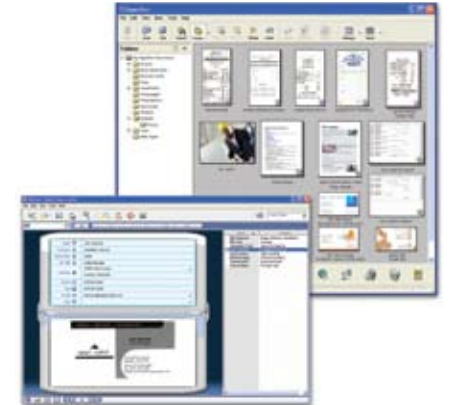

The Travel Scanner 100 integrates Kofax VRS image enhancement technology into the OneTouch scanning process. VRS is the gold-standard in image improvement technology. Imperfect originals are automatically turned into perfect scans that are easier to read. OCR results are dramatically improved, file size is decreased and scans look as clear as the originals. Every page is custom corrected automatically so you can batch together clean, laser quality documents with your imperfect originals – the results are amazing.

Nuance OmniPage Pro

Provides a precise OCR and layout retention solution, quickly turning scanned documents into editable, formatted text. The text can then be used in virtually any word processing, desktop publishing or web publishing programme.

Newsoft Presto! BizCard

NewSoft Presto! BizCard is the ideal tool for helping you stay in touch with your worldwide contacts whether their business cards are printed in English or a pan-European language. Presto! BizCard quickly and easily converts the vital contact information on business cards into a convenient, searchable, digital database that can be easily synchronised between PCs, notebooks, PDAs and PIMs.

Nuance PaperPort

Millions of professionals rely on PaperPort to save time and money by transforming paper documents into searchable digital documents. PaperPort combines the efficiency of document management, the convenience of superbly scanned documents and the power of creating PDF files, to bring a new level of operational proficiency to your organisation.

Travel Scanner 100 Product Specifications

Xerox Part No.	003R98788
